

# techEteens Info

techEteens: Pioneering the Technological Age of Education.

The techEteens use as much technology as they can to make a learning environment more efficient and more fun to be in.

## About Mrs. Fields' Class

Mrs. Fields' Advanced Language Arts class consists of 25 students. Throughout the year, various tech tools were reviewed.

These tools were then used to create concept understanding as well as collaboration.

## Short Summary of Frames

## Examples of Frames in Teaching

**Frames** is a part of the "Tech4Learning" software series.

It is used by many in-school and out-of-school programs alike to create original movies and animations.

Materials such as clay, paper, LEGO® pieces and much more can be used to create a fun and/or educational animated video. All you have to do is take many individual pictures of your models while moving them slightly to make it look like they are in motion. If you have an idea, Frames can
